Our Home

Hanningfield retirement Home is an exquisite 39 bedroom home that is independently run by the Tobiansky family comprising of Dr Ian his wife Sharon and their son Joshua. Hanningfield pride ourselves at being a family run care home, with a very close and united team of incredible carers, many of whom has been with us for countless years. They truly are the backbone of our family here.

Kate is our manager who is always present and always approachable, with an energetic enthusiasm to her daily duties. She has been with us for over twelve years now, she has a great relationship with all the residents and is very committed to ensuring the best quality care is always attained. Agnes our deputy has been with us for 9 years and is equally as invaluable to our family. Between them they have helped craft us into a care home that we are proud of.

Our staff are very caring and highly efficient at their daily duties. They are all trained up to the highest standards and carry out their duties with enthusiasm, energy and kindness, whilst being supported and mentored by the managers and their proficient team leaders

Hanningfield Retirement Home is fully compliant with all the CQC regulations and requirements, updating promptly to any changes to ensure we always offer the highest quality service in a holistic approach.

The home provides a pleasant, tranquil and clean environment. The residents are provided with three hearty meals a day prepared by our lovely and very talented chef Margaret. Each meal time has a range of options available so your loved ones can select the best fit to meet their diet and preferences. There is always an endless supply of tea, coffee and other preferred beverages, accompanied by biscuits, cakes and a range of fruit

We also offer regular activities daily. We have a scheduled time period for both the morning and afternoon where our activities co-ordinator Vicky does a wonderful job arranging fun and varied activities that are both entertaining and stimulating. We find these times to be a great way to encourage more social interactions, though equally we have activities available for individual participation.

All the rooms, lounges, toilets etc. are adequately supplied with nurse call systems, so that all the residents and their loved can have peace of mind that immediate assistance (24 hours a day) is only a push of a button away.

The home is serviced by visiting professionals, be they daily visits by specialist nurses, doctors, physiotherapists, occupational therapists etc.

The home has regular visits by opticians, a weekly hairdresser and chiropodist.

The home is more than adequately supplied by special aids, such as wheelchairs, stand aids, hoists, rotor stands, bath hoists, wet rooms etc., that are used to facilitate the and improve the quality of the lives of all residents.
